

COMPTES RENDUS BIOLOGIES

Tome 340 (2017) – N° 2 – février

Cover illustration: Scorpion fauna of Vietnam. *Heterometrus laoticus* Couzijn, 1981, female.
Photo E. Ythier. For further details, see D.-S. Pham. et al., this issue, pp. 132–137.

Molecular biology and genetics / Biologie et génétique moléculaires

- SSR and morphological trait based population structure analysis of 130 diverse flax (*Linum usitatissimum* L.) accessions
Shashi Bhushan Choudhary, Hariom Kumar Sharma, Arroju Anil Kumar, Rangappa Thimmaiah Maruthi, Jiban Mitra, Isholeena Chowdhury, Binay Kumar Singh, Pran Gobinda Karmakar 65
- Determination of genetic diversity among *Saccharina* germplasm using ISSR and RAPD markers
Cuiju Cui, Yan Li, Yanling Liu, Xiaojie Li, Shiju Luo, Zhuangzhi Zhang, Ruina Wu, Guangjin Liang, Juan Sun, Jie Peng, Pingping Tian 76
- Molecular genetics of human obesity: A comprehensive review
Rajan Kumar Singh, Permendra Kumar, Kulandaivelu Mahalingam 87

Biochemistry / Biochimie

- Lack of effects of statins on high-density lipoprotein subfractions in HIV-1-infected patients receiving protease inhibitors
Randa Bittar, Élisabeth Aslangul, Philippe Giral, Lambert Assoumou, Marc-Antoine Valantin, Olga Kalmykova, Marie-Christine Federspiel, Corinne Cherfils, Dominique Costagliola, Dominique Bonnefont-Rousselot, the ANRS 126 study group 109

Medical sciences / Sciences médicales

- Les microRNA comme biomarqueurs : quelles perspectives ?
Mustapha Zendjabil, Séverine Favard, Chantal Tse, Omar Abbou, Bernard Hainque 114

Biodiversity / Biodiversité

- Diversity and endemism in the scorpion fauna of Vietnam. A preliminary synopsis
Dinh-Sac Pham, Thi-Hang Tran, Wilson R. Lourenço 132
