In the paper entitled “Bacterial interspecies quorum sensing in the mammalian gut microbiota”, published in *Comptes rendus Biologies*, the primary literature was not properly cited in following sentence:

“Since its discovery, many studies have shown that AI-2 regulates a variety of behaviours which are typically regulated by quorum sensing such as bioluminescence in *Vibrio harveyi*, biofilm formation and virulence in *Vibrio cholerae*, formation of oral biofilms in *Streptococcus gordonii*, phage dispersal in *Enterococcus faecalis*, and motility and cell aggregation in *Escherichia coli* [7–9].”

The sentence with the proper citations should read as follows:

“Since its discovery, many studies have shown that AI-2 regulates a variety of behaviours which are typically regulated by quorum sensing such as bioluminescence in *Vibrio harveyi* [1,2], biofilm formation and virulence in *Vibrio cholerae* [3–5], formation of oral biofilms in *Streptococcus gordonii* [6–8], phage dispersal in *Enterococcus faecalis* [9], and motility and cell aggregation in *Escherichia coli* [10–14], reviewed in [15].”
