## RETRACTION: The influence of coating-carbonization cycles toward P84 co-polyimide/nanocrystalline cellulose

[C. R. Chimie, 2019, 22, no. 11-12, 779-785]

The above article in *Comptes Rendus Chimie* published online on 21 october 2019, in Elsevier Online Library (<https://www.sciencedirect.com/science/article/pii/S1631074819301651>), and in Volume 22, Issue 11–12, 2019, pages 779–785 (DOI: 10.1016/j.crci.2019.09.006), has been retracted at my request because it was found that some graphical data cast doubts on the claims made.
