

COMPTES RENDUS MATHÉMATIQUE

Tome 357 (2019) – N° 10 – octobre

Fenêtre, 1976, détail, Éric Hallberg ©, né en 1933.
Fenêtre, 1976, detail, Éric Hallberg ©, born in 1933.

Combinatoire/Combinatorics

- (voir tome 357, série I, 2019, p. 752)
- (voir tome 357, série I, 2019, p. 756)
- (voir tome 357, série I, 2019, p. 766)

Théorie des nombres/Number Theory

- Characterization of Kummer hypergeometric Bernoulli polynomials and applications
Driss Drissi 743
- A note on multiplicative automatic sequences
Oleksiy Klurman, Pär Kurlberg 752
- Symbolic summation methods and congruences involving harmonic numbers
Guo-Shuai Mao, Chen Wang, Jie Wang 756
- A sum–product theorem in matrix rings over finite fields
Thang Pham 766

Algèbre/Algebra

- Dense proportions of zeros in character values
Alexander R. Miller 771

Analyse mathématique/Mathematical Analysis

- (voir tome 357, série I, 2019, p. 743)

Analyse complexe/Complex Analysis

- Generalized directional Lelong number of a positive plurisubharmonic current
Moncef Toujani 773

Équations aux dérivées partielles/Partial Differential Equations

- Blow-up dynamics for the hyperbolic vanishing mean curvature flow of surfaces asymptotic to a Simons cone
Hajer Bahouri, Alaa Marachli, Galina Perelman 778

Continued on the next page

Contents (continued)

- Stability estimate in the inverse scattering for a single quantum particle in an external short-range potential
Mourad Bellassoued, Luc Robbiano 784
- Analyse fonctionnelle/Functional Analysis**
- Joint spectra of spherical Aluthge transforms of commuting n -tuples of Hilbert space operators
Chafiq Benhida, Raúl E. Curto, Sang Hoon Lee, Jasang Yoon 799
- Géométrie différentielle/Differential Geometry**
- (voir tome 357, série I, 2019, p. 803)
- Topologie différentielle/Differential Topology**
- Differential K -theory, η -invariant, and localization
Bo Liu, Xiaonan Ma 803
