

COMPTES RENDUS MECANIQUE

Tome 339 (2011) – N° 5

Soret effect and convection coupling:
Thermogravitational diffusion in a horizontal porous cell heated from below and saturated by a binary fluid, the mass fraction at each end varying by -20% to $+20\%$

Thematic issue / Numéro thématique

Thermodiffusion and coupled phenomena / *Thermodiffusion et phénomènes couplés*

Guest editor / *Rédacteur en chef invité* : Abdelkader Mojtabi

- Foreword
Abdelkader Mojtabi, Pierre Costesèque 273
- Thermodiffusion phenomena
Pierre Costesèque, Abdelkader Mojtabi, Jean Karl Platten 275
- Thermodynamics of mass transport in diluted suspensions of charged particles in non-isothermal liquid electrolytes
Semen N. Semenov, Martin E. Schimpf 280
- Nonisothermal diffusion–reaction with nonlinear Kramers kinetics
José M. Ortiz de Zárate, Dick Bedeaux, Ignacio Pagonabarraga, Jan V. Sengers, Signe Kjelstrup 287
- Validity limits of the FJO thermogravitational column theory: Experimental and numerical analysis
Jose Antonio Madariaga, Carlos Santamaria, Haritz Barrutia, M. Mounir Bou-Ali, Oscar Ecenarro, Jose Javier Valencia 292
- Soret-driven convection in a porous cavity with perfectly conducting boundaries
Dmitriy Lyubimov, Konstantin Gavrilov, Tatyana Lyubimova 297
- Soret-driven convection and separation of binary mixtures in a porous horizontal slot submitted to a heat flux
Marie Catherine Charrier-Mojtabi, Bilal Elhajjar, Bafétigué Ouattara, Abdelkader Mojtabi, Pierre Costesèque 303
- The IVIDIL experiment onboard the ISS: Thermodiffusion in the presence of controlled vibrations
Valentina Shevtsova, Aliaksandr Mialdun, Denis Melnikov, Ilya Ryzhkov, Yuri Gaponenko, Ziad Saghir, Tatyana Lyubimova, Jean Claude Legros 310
- Thermodiffusion: From microgravity experiments to the initial state of petroleum reservoirs
Mathieu Touzet, Guillaume Galliero, Veronique Lazzeri, M. Ziad Saghir, François Montel, Jean-Claude Legros 318
- From ballistic to diffusive regimes in heat transport at nano-scales
Georgy Lebon, Miroslav Grmela, Charles Dubois 324
