

COMPTES RENDUS PHYSIQUE

Tome 7 (2006) – N° 1

Observing domain-wall superconductivity in Nb film deposited on the single-crystal BaFe12019. For more details, see Moshchalkov et al., page 86, this issue.

Observation de la supraconductivité des parois de domaine dans une couche de Nb déposée sur un monocristal de BaFe12019. Pour plus de détails, voir Moshchalkov et al., page 86, ce numéro.

DOSSIER

Superconductivity and magnetism / *Supraconductivité et magnétisme*

Guest editor / *Rédacteur en chef invité* : Alexandre Buzdin

• Foreword Alexandre Buzdin	1
• Conventional magnetic superconductors: coexistence of singlet superconductivity and magnetic order Miodrag L. Kulić	4
• Magnetism and superconductivity of heavy fermion matter Jacques Flouquet, Georg Knebel, Daniel Braithwaite, D. Aoki, Jean-Pascal Brison, Frédéric Hardy, Andrew Huxley, Stéphane Raymond, Bernard Salce, Ilya Sheikin	22
• Interplay between magnetism and superconductivity in URhGe Vladimir P. Mineev	35
• Effects of magnetic excitations on the I–V characteristic of magnetic superconductors Marina Hruška, Lev N. Boulaevskii	42
• Magnetism and superconductivity in rare earth–nickel–borocarbides Sergey L. Bud’ko, Paul C. Canfield	56
• The ruthenocuprates: natural superconductor–ferromagnet multilayers Timo Nachtrab, Christian Bernhard, Chengtian Lin, Dieter Koelle, Reinhold Kleiner	68
• Nucleation of superconductivity and vortex matter in hybrid superconductor/ferromagnet nanostructures Victor V. Moshchalkov, Dušan S. Golubović, Mathieu Morelle	86
• The effects of magnetization switching on the superconducting properties of <i>S/F</i> bilayers and <i>F/S/F</i> trilayers Jan Aarts, Alexander Yu. Rusanov	99

Suite du sommaire page suivante

Sommaire (suite)

- Proximity effect in superconductor–ferromagnet heterostructures
Alexandre I. Buzdin, Valery V. Ryazanov 107
- Superconductivity and macroscopic quantum effects in superconducting/ferromagnetic hybrid nanostructures
Marco Aprili, Takis Kontos, Maria-Luisa Della Rocca, Jérôme Lesueur, Wiebke Guichard, Philippe Gandit, A. Bauer, Christoph Strunk 116
- Odd triplet superconductivity in superconductor–ferromagnet hybrid structures
F. Sebastián Bergeret, Anatoly F. Volkov, Konstantin B. Efetov 128
- Spin-polarized proximity effect in superconducting junctions
Takehito Yokoyama, Yukio Tanaka 136
