

# COMPTES RENDUS PHYSIQUE

Tome 7 (2006) – N° 7

Atelier Isatis, Dijon, France

Towards communications with anyone, anywhere, anytime

## DOSSIER

Towards reconfigurable and cognitive communications / *Vers des communications reconfigurables et cognitives*

Guest editors / *Rédacteurs en chef invités* : Maurice Bellanger, Pierre-Noël Favennec, Erich Spitz

- Foreword  
**Maurice Bellanger, Bernard Fino** ..... 701
- Propagation channel models for mobile communication  
**Patrice Pajusco** ..... 703
- Influence of the level of description of the indoor environment on the characteristic parameters of a MIMO channel  
**Carlos Pereira, Yannick Chartois, Yannis Pousset, Rodolphe Vauzelle** ..... 715
- Wave propagation in tunnels in a MIMO context—a theoretical and experimental study  
**Martine Lienard, Pierre Degauque, Jose Maria Molina-Garcia-Pardo** ..... 726
- Reconfigurable architecture for MIMO systems based on CORDIC operators  
**Hongzhi Wang, Pierre Leray, Jacques Palicot** ..... 735
- Deterministic simulation of MIMO–UWB transmission channel  
**Louis-Marie Aubert, Bernard Uguen, Friedman Tchoffo Talom** ..... 751
- Statistical modeling of the ultra wide band propagation channel through the analysis of experimental measurements  
**Pascal Pagani, Patrice Pajusco** ..... 762
- Combination of OFDM and CDMA for high data rate UWB  
**Emeric Guéguen, Nadia Madaoui, Jean-François Héland, Matthieu Crussière** ..... 774

*Suite du sommaire page suivante*

*Sommaire (suite)*

- A reconfigurable RF sampling receiver for multistandard applications  
**Anis Latiri, Loïc Joet, Patricia Desgreys, Patrick Loumeau** ..... 785
- Cognitive radio: methods for the detection of free bands  
**Mohamed Ghozzi, Mischa Dohler, François Marx, Jacques Palicot** ..... 794
- Opportunistic scheduling using cognitive radio  
**Mischa Dohler, Seyed A. Ghorashi, Mohamed Ghozzi, Marylin Arndt, Fatin Said, A. Hamid Aghvami** ..... 805
- Time reversal telecommunications in complex environments  
**Arnaud Tourin, Geoffroy Lerosey, Julien de Rosny, Arnaud Derode, Mathias Fink** ..... 816
