

COMPTES RENDUS PHYSIQUE

Tome 11 (2010) – N° 9–10

Whole body SAR induced in VH at 2100 MHz for V-polarization depending on the angle of arrival in a vertical font plane (see Conil et al. this issue).

DOSSIER

Interactions between radiofrequency signals and living organisms / *Interactions entre signaux radiofréquences et vivants*

**Guest editors / Rédacteurs en chef invités : Françoise Boudin, Martine Hours,
Jean-François Lacronique**

• Foreword Françoise Boudin, Martine Hours, Jean-François Lacronique	529
• Whole body exposure at 2100 MHz induced by plane wave of random incidences in a population Emmanuelle Conil, Abdelhamid Hadjem, Aimad El Habachi, J. Wiart	531
• Assessing personal exposures to environmental radiofrequency electromagnetic fields Simon Mann	541
• Essential problems in the interpretation of epidemiologic evidence for an association between mobile phone use and brain tumours Michael Kundi	556
• Electromagnetic hypersensitivity: The opinion of an observer neurologist Jean-Pierre Marc-Vergnes	564
• Sense and sensibility in the context of radiofrequency electromagnetic field exposure Martin Röösli, Evelyn Mohler, Patrizia Frei	576
• The brain is not a radio receiver for wireless phone signals: Human tissue does not demodulate a modulated radiofrequency carrier Christopher C. Davis, Quirino Balzano	585

Suite du sommaire page suivante

Sommaire (suite)

- In situ detection of gliosis and apoptosis in the brains of young rats exposed in utero to a Wi-Fi signal
Saliha Aït-Aïssa, Bernard Billaudel, Florence Pouletier De Gannes, Annabelle Hurtier, Emmanuelle Haro, Murielle Taxile, Gilles Ruffie, Axel Athane, Bernard Veyret, Isabelle Lagroye 592
- Effects of radiofrequency field on the blood-brain barrier: A systematic review from 2005 to 2009
Anne Perrin, Céline Cretallaz, Alice Collin, Christine Amourette, Catherine Yardin 602
- Evaluation of the co-genotoxic effects of 1800 MHz GSM radiofrequency exposure and a chemical mutagen in cultured human cells
Anne Perrin, Maëlle Freire, Christine Bachelet, Alice Collin, Philippe Levêque, Simon Pla, Jean-Claude Debouzy 613
- Source of funding in experimental studies of mobile phone use on health: Update of systematic review
Lotte E. van Nierop, Martin Röösli, Matthias Egger, Anke Huss 622
- Complaints in environmental health and the construction of risk as cultural resource
Marcel Calvez 628
- Medical practitioners and electromagnetic fields (EMF): Testing their concern
Danielle Salomon 636
