DOSSIER

Science of nuclear safety post-Fukushima

Guest editors / Rédacteurs en chef invités : Robert Daustray, Edouard Brézin

- Foreword
Robert Daustray, Edouard Brézin 337
- Research at the CEA in the field of safety in 2nd and 3rd generation light water reactors
Philippe Billot 340
- Third generation nuclear plants
Bertrand Barré 352
- Complementary safety assessments of the French nuclear facilities
Xavier Pouget-Abadie 359
- Generation IV reactors and the ASTRID prototype: Lessons from the Fukushima accident
François Gauché 365
- Continuously improving safety of nuclear installations: An approach to be reinforced after the Fukushima accident
Jacques Repussard, Michel Schwarz 372
- Conclusion
Robert Daustray, Edouard Brézin 378
