## DOSSIER

### Radio science for connecting humans with information systems / *L'homme connecté*

Scientific workshop / *Journées scientifiques* URSI-France, CNAM, 25 & 26 March 2014

Coordinators / *Coordinateurs* : Alain Sibille, Claude Oestges

- Foreword  
**Alain Sibille, Claude Oestges** ..... 773
- A regularised boundary element formulation for contactless SAR evaluations within homogeneous and inhomogeneous head phantoms  
**Rajendra Mitharwal, Francesco P. Andriulli** ..... 776
- Body area networks at radio frequencies: Creeping waves and antenna analysis  
**Khaleda Ali, Farshad Keshmiri, Alessio Brizzi, Yang Hao, Christophe Craeye** ..... 789
- A statistical assessment of ambient electromagnetic field using body-worn multiaxial sensors  
**Christophe Roblin** ..... 802
- Coils for ingestible capsules: Near-field magnetic induction link  
**Marjorie Grzeskowiak, Fatiha El Hatmi, Antoine Diet, Megdouda Benamara, David Delcroix, Thierry Alves, Stéphane Protat, Shermila Mostarshedi, Odile Picon, Yann Le Bihan, Gaelle Lissorgues** ..... 819
- 4G antennas for wireless eyewear devices and related SAR  
**Aykut Cihangir, Will Whittow, Chinthana Panagamuwa, Gilles Jacquemod, Frédéric Giancesello, Cyril Luxey** 836
- Compact planar monopole antenna for wearable wireless applications  
**Tsitoha Andriamiharivolamena, Pierre Lemaître-Auger, Smail Tedjini, Franck Tirard** ..... 851
- Overview of mobile localization techniques and performances of a novel fingerprinting-based method  
**Isabelle Vin, Davy P. Gaillot, Pierre Laly, Martine Liénard, Pierre Degauque** ..... 862
